

WASH Resources

If you need help locating or any advice on resources please contact Frank Greaves – frank.greaves@tearfund.org

1. US-AID HIPS (Health Initiatives for the Private Sector Project) specific hygiene practises

A good example of a marketing approach to hygiene promotion.

<http://www.emg-hips.com/old%20news4.html>

<http://www.hip.watsan.net/content/download/1506/7178/file/20060525-HIP-E-Conference-HWTS.pdf>

2. WHO Public Health in Complex Emergencies

3. Project Cycle Management

See TILZ website for ROOTS publications (ROOTS 5)

<http://tilz.tearfund.org/Publications/ROOTS/Project+cycle+management.htm>

4. WASH Advocacy and Policy, including *Advocacy Tool Kit (ROOTS)*

See TILZ website for ROOTS publications (ROOTS 1, “*Understanding Advocacy*”, and ROOTS 2, “*Practical Advocacy*”)

<http://tilz.tearfund.org/Publications/ROOTS/Advocacy+toolkit.htm>

5. CLTS material

Two key CLTS docs are contained within the TF-GPR (recent additions), or download:

1. Kar, Kamal with Chambers, Robert (2008) [Handbook on Community-Led Total Sanitation](#) . London: Plan International (UK).

2. Robert Chambers (March 2009) [Going to Scale? The Potential of Community-led Total Sanitation](#)

In this IDS Practice Paper, which forms part of the action learning component of the project, Robert Chambers reviews the experience gained with CLTS in Asia and Africa as it has spread over the last few years, explores options and ways forward for the future. He touches on the context and background of CLTS, illustrates different patterns of spread with country case studies from Bangladesh, India, Indonesia, Pakistan, Ethiopia and Kenya, and highlights practices that have been found effective as well as obstacles and emerging issues for review, reflection and research. Download directly at:

http://www.communityledtotalsanitation.org/sites/communityledtotalsanitation.org/files/Chambers_Going%20to%20Scale%20with%20CLTS.pdf

Besides these key publications, keep in touch with all that’s happening in the world of CLTS, through the CLTS support group web-site:

<http://www.communityledtotalsanitation.org/page/about-site>

6. Water testing kit

See under TF-GPR (Practical data/Water quality & treatment), and also the IRC-EHFG

7. Hygiene promotion tools

See numerous publications and factsheets in IRC-EHFG/Portable Library/Hygiene Promotion folder.

8. WASH Good Practise Guide (TF-GPR)

I am working on a more logically set-out version of the TF-GPR, which incorporates our values and preferred approaches. This will be available in April 2010, and a concise version will be available on TILZ for the benefit of Tearfund partners. Any reference needs to be updated with the latest learning in approaches and innovations, so please keep me informed on publications or

papers which you find particularly useful. The current version of the TF-GPR is available on request (I'll burn a CD-ROM and have it sent through your DMT Country Programme).

An important recent addition to the TF-GPR has been the following sanitation publication:

http://wedc.lboro.ac.uk/projects/proj_contents0/WEJEV%20-%20Field%20Practice%20for%20Excreta%20Disposal%20in%20Emergencies/www/outputs/Excreta%20Disposal%20in%20Emergencies.pdf

9. "Engineering in Emergencies"

This standard text should be available in all DM Team HQs, but it is also available from Practical Action Publishing in two versions – with and without a CD-ROM of the book (Unfortunately the CD-Rom is secured against all editing and copying / cutting-and-pasting). See

<http://www.redr.org/redr/support/resources/EinE/EinE.htm>

I would also recommend the standard water engineering handbook produced by "Action Contre La Faim":

<http://www.actionagainsthunger.org/resources/water-sanitation-hygiene-populations-risk>

ISBN 2 7056 6499 8

10. North Sudan Child Health Manual

This is an excellent child-orientated hygiene promotion resource. Unfortunately, the file is huge (around 40MB), so is too large to e-mail to you. Please contact DMT directly for a copy (to be burnt onto CD-Rom).

11. SPHERE

<http://www.sphereproject.org/>

DMT at Teddington have held a couple of ½ day SPHERE courses in the past: this brief training could be given during a visit to a Country Programme by DMT Ops staff/Project Co-ordinator, or myself, upon request.

Don't forget to send in any recommendations or ideas you may have for the revised (2010) version of the handbook. The information you need is contained in:

<http://www.sphereproject.org/dmdocuments/revision/Revision%20flyer%202-pager.pdf>

12. IDRP 21 – Sanitation network, giving activity in different regions

<http://www.id21.org/id21-email/email.html>

13. WEDC and WSSCC web-sites (See 16)

14. ODI papers

15. WELL Fact Sheets

http://wedc.lboro.ac.uk/WHO_Technical_Notes_for_Emergencies/

Water Supply

- Sanitation and Hygiene
- Sector Monitoring
- Cross Cutting Issues

Interesting Factsheets include:

Ecological Sanitation

- Effectiveness of water quality intervention in preventing diarrhoea
- Emptying Pit Latrines
- Evaluation of hygiene promotion

- Health impact of hand washing with soap; Health impacts of improved household sanitation
- HIV/Aids and water supply; sanitation and hygiene
- Hygiene promotion
- Measuring the health impact of water and sanitation
- On-site sanitation in areas with a high groundwater table
- Social marketing: A consumer-based approach to promoting safe hygiene behaviours
- Some global statistics for water and sanitation related diseases
- Sustaining hygiene behaviours
- The process for sanitation marketing
- Waste disposal in developing countries
- Arsenic in drinking water
- Field Water Quality Testing in Emergencies
- Household water treatment
- Household water treatment; storage and handling
- Microbiological Contamination of Water Supplies from Pit Latrines
- Scaling Up Community Management of Rural Water Supply
- Water and livelihoods.

WEDC Technical Briefs

www.lboro.ac.uk/well/resources/technical-briefs/technical-briefs.htm

(See Technical Briefs 51, 54, 63, 64, 45, 61 – all available to download free)

Technical Briefs 2, 6, 9, 16, 23, 28 are also very useful. These are not available on the web, but are available in a book called *The Worth of Water* (IT Publishing, 1991, reprinted 2007). For more information go to www.practicalactionpublishing.com

16. WEDC: “Emergency Sanitation”

Contained in TF GPR under “Practical Data/Emergency Sanitation”.

See also: <http://www.maximsnews.com/news20081105compendiumwsscc10811050801.htm>

17. Practical material on advocacy (Possibly including CD / Software)

See:

<http://tilz.tearfund.org/webdocs/Tilz/Topics/Why%20advocate%20for%20water,%20sanitation%20and%20hygiene.pdf>

<http://tilz.tearfund.org/Publications/ROOTS/Advocacy+toolkit.htm>

<http://www.wsscc.org/en/resources/advocacy-material/index.htm>

http://www.wsscc.org/fileadmin/files/pdf/publication/wwd_2008.pdf

http://www.wsscc.org/fileadmin/files/pdf/publication/Advocacy_Sourcebook_interactive.pdf

<http://www.globalhandwashingday.org/>

ACF/Tearfund Manual on the Human Right to Water & Sanitation in Emergencies (February 2009) (Given out at the Forum). E-copy can be downloaded free of charge from:

<http://www.humanitarianreform.org/humanitarianreform/Portals/1/cluster%20approach%20page/clusters%20pages/WASH/Project%208%20-%20HRTWS%20in%20Emergencies%20Handbook.pdf>

18. PHAST (English & French)

A down-loaded photocopied version of this is available on IRC-EHFG: unfortunately, the copy is not top quality. The manuals can be down-loaded for free, however:

http://www.who.int/water_sanitation_health/hygiene/envsan/phast/en/

19. Dam construction

Good information contained within IRC-EHFG.

20. Water Safety Plans – software or manual

Tearfund WSP guidelines under construction. Meanwhile, See:

<http://tilz.tearfund.org/Topics/Water+and+Sanitation/Water+Safety+Plans.htm>

<http://www.lboro.ac.uk/well/resources/fact-sheets/fact-sheets-htm/Water%20quality.htm>

21. Hygiene promotion for children

See the following three publications by the IRC (International Water and Sanitation Centre, The Netherlands), hard-copies of which were on display at the Forum, and are also accessible through the TF-GPR and IRC-EHFG:

- *“Towards Effective Programming for WASH in Schools: A manual on scaling up programmes for water, sanitation and hygiene in schools”*, Technical Paper Series 48, 2007. ISBN: 978-90-6687-064-2
- *“The Joy of Learning: Participatory lesson plans on hygiene, sanitation, water and the environment”*, 2005. ISBN: 90-6687-053-2
- *“Child-Friendly Hygiene and Sanitation facilities in Schools: Indispensable to effective hygiene education”*, 2005. ISBN: 90-6687-050-8

22. Hygiene promotion generally (including methodologies)

The complete Hygiene Promotion Training resource produced by Oxfam on behalf of the Global WASH Cluster (Shown at the Forum): *“Training Materials for Hygiene Promoters & Community Mobilisers”*, is downloadable for free in English, French or Spanish, from:

<http://www.humanitarianreform.org/Default.aspx?tabid=343>

23. AUTOCAD

I understand that this can be made available to DM Team WASH Advisers and Project Managers upon request. You will need to submit your lap-top to Tearfund IT to upload the software.

24. Facilitation skills

See: Training Tips and ideas by Amy McDonald (Tearfund)

25. WASH marketing / product marketing; Demand-led approaches generally:

See:

<http://www.eldis.org/go/topics/dossiers/livelihoods-connect/water-and-sanitation>

<http://www.eldis.org/go/topics/dossiers/livelihoods-connect/water-and-sanitation/introduction>

<http://tearnet.org/NR/exeres/4B4038C9-2707-4834-BFE2-8B1BD505B9CA,frameless.htm?NRMODE=Published>

26. Standardised designs of WASH structures

See IRC Environmental Health Field Guide, where there is a large folder on EH Sample Designs (divided into Water and Sanitation)

27. Marketing of the Biosand Filter

See examples of Afghanistan and Ethiopia in copied presentations to the Forum CD-Rom. See also the Biosand filter website (below)

28. General Biosand Filter resources (production, programming)

<http://www.biosandfilter.org/biosandfilter/>

<http://tilz.tearfund.org/Publications/Footsteps+61-70/Footsteps+67/Biosand+filters.htm>

29. General WASH learning from the field

See the new WASH Wikipedia site, “Akvopedia” (Launched at the Stockholm World Water Week in August 2008):

http://www.akvo.org/wiki/index.php/Main_Page - an open water and sanitation resource that anyone can edit:

http://www.akvo.org/wiki/index.php/How_to_contribute. The goal of Akvopedia is to improve water and sanitation projects through knowledge exchange on smart and affordable technical solutions and effective approaches.

See also these practical rainwater harvesting publications:

Thomas, T.H. and Martinson, D.B. (2007), *Roofwater Harvesting: A Handbook for Practitioners*. Delft, The Netherlands, IRC International Water and Sanitation Centre. Technical Paper Series No. 49, 160p. ISBN 9789066870574

Three Netherlands Water Partnership publications: Smart Sanitation Solutions, Smart Water Solutions, and Smart Water Harvesting Solutions:

<http://www.nwp.nl/index.cfm/site/371DE44E-0574-FFD6-90D1C1585AD5A258/pageid/7A5FB683-B7F6-DEBB-1E3E6D2161987C34/index.cfm>
